XTS™ Series

Driven by a user friendly touchscreen interface and intuitive software, the XTS series represents the next step in the evolution of FETCO's renown EXTRACTOR® brewing technology.
Cascading Spray Dome™

Hot tank water flows over clog-free channels built into the dome and virtually eliminates spray head scale buildup — a leading reason for service calls.
Legendary Extractor® Control

Take your coffee to its peak level by unlocking the full freshness, aroma and flavor of your taste profile with the legendary EXTRACTOR® brewing technology.

Efficient Design & Construction

FETCO equipment is designed and built to standards well above most others on the market today and can deliver significant energy savings when compared to similar competitor's products.

Modern Convenience

Duplicate profiles and parameters to and from any of the batch buttons on a single machine or copy the information to an unlimited number of brewers via a removable SD card (sold separately).

High Volume Capacity

Pair up with the durable 1.5 or 3.0 TPD thermal dispenser for portable, high-volume coffee service anywhere in your venue.
