NATURAL EVOLUTION

It Started in 1987.....

We pioneered the **LUXUS® THERMAL DISPENSER**, dreaming that one day it would become the standard for dispensing coffee that always tastes "just brewed". Fifteen years and hundreds of thousands of dispensers later our vision is the mark of serving the freshest tasting coffee.

Now for those who are driven and passionate about providing the best coffee, we present our newest model of **LUXUS® THERMAL DISPENSERS** with these patented innovations:

The LUXUS® Thermal Dispenser
Brewing directly into our LUXUS® Thermal Dispenser ensures a continuous flow of hot, aromatic, great tasting coffee. LUXUS® Thermal Dispensers are totally portable and require no electric power to maintain serving temperature. LUXUS® Thermal Dispensers remove the hazards of utilizing glass-lined products without loss of performance, while adding the durability of stainless steel.

Thermally Insulated

Brew Through Lid

Notched Sight Gauge
