

How To Use Your CBS-18 Extractor™ Coffee Brewing System

Before brewing, make sure that the power is on and the ready light is illuminated.

Pull out the brew basket, place a paper filter carefully inside basket and fill with the appropriate amount of ground coffee. Make sure coffee is spread evenly throughout the filter.

Open the lid and slide the dispenser under the brew basket.

Press start - orange brew light will illuminate during brewing.

After brewing make sure coffee has finished dripping out of the bottom of the brew basket, then carefully remove brew basket and discard grounds.

Remove dispenser and make sure the red ring serving position on top of the dispenser is open. Close lid and the coffee is now ready for serving.
