

TEA BREWING SYSTEMS

TBS-2121XTS Tea Brewer

Shown with ITD-2135 14.0 Liter Iced Tea Dispensers

TOUCHSCREEN SIMPLICITY

A simple touch is all it takes to experience full control over the brew cycle.

FUNCTIONAL DESIGN

New features and exclusive designs provide an extraordinary tea service experience for both operators and consumers.

FEATURES

Brew flavorful and refreshing teas with the TBS-2121XTS Twin 14.0 Liter Tea Brewer from FETCO. Precision brew controls, modern style and expert craftsmanship come together to provide a versatile beverage solution for the operator and an extraordinary taste experience for their customers.

The TBS-2121XTS Twin 14.0 Liter Touchscreen Tea Brewer combines the simplicity of a touchscreen with new features like the innovative “intelligent” brew basket for quick, efficient operation and producing flavorful taste profiles from your teas.

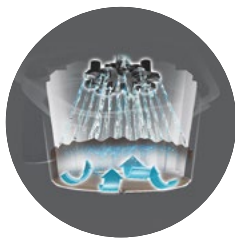

USER FRIENDLY OPERATION

Access all controls via an inviting touchscreen interface display that blends intuitive icons with dynamic time and volume data.

Efficiently navigate set-up, programming, diagnostics and daily brewing modes.

Customize the start screen to tie your equipment and product offerings into a consistent brand message.

EXTRACT, BREW AND STEEP

FETCO’s patented Cascading Spray Dome water delivery system provides excellent coverage for loose leaf or prepackaged tea and will never clog!

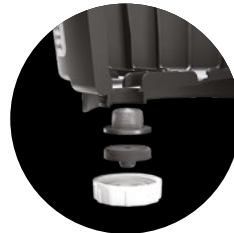

Dual dilution spouts positioned above the container dispense water directly from the inlet. The right-side spout can also deliver liquid sweetener (if so equipped).

Program the exact steep time for precise control over flavor extraction.

CONTEMPORARY STYLE

Modern European style elevates your iced tea service with an attractive, inviting self-serve atmosphere.

INTELLIGENT BREW BASKETS

Brew side sensors automatically detect which side brewing will occur. Adjustable orifice and filter screen system comes with seven different orifice sizes for optimum flavor tuning.

EXPANDABLE BASE

Expandable Dispenser Base with front-to-back guide rails keep dispensers properly aligned with brew basket. Optional dispenser station add-on platforms are available in single and dual sizes for the right amount of dispenser space you need.

SPACE SAVINGS

Slim profile dispensers can be filled and placed in any area to make an instant serving station.

EVERPURE®

In-Line Water
Filtration System

SET INCLUDES: 1ea. commercial quality corrosion resistant filter head 1ea. taste and odor filter cartridge (FETCO® #A075) / 1ea. 3/8" x 4' connection hose / 1 set — mounting bracket and hardware.

- Recommended for large-sized operations
- Taste and odor filter for extremely turbid (cloudy) water
- Granular-activated carbon reduces sediment and chlorine
- Quick-disconnect style head/cartridge design cartridge for effortless replacement
- Durable, corrosion-resistant head includes built-in shutoff valve

BWT BESTMAX

In-Line Water
Filtration System

SET INCLUDES: 1ea. filter cartridge / 1ea. universal filter head / 1ea. wall mounting bracket Braided hose supplies 3/8" and 3/4" compression, in 24" or 48" lengths

- Recommended for small- to medium-sized operations
- Carbonate hardness removal prevents scale deposits and retains minerals
- Granular-activated carbon reduces sediment and chlorine
- Quick-disconnect style head/cartridge design cartridge for effortless replacement
- Durable, corrosion-resistant head includes built-in shutoff valve
- Four bypass settings allows for different water qualities and product preferences
